

AIA Continuing Education System

ASI Group Registered Provider Program Summary Handout

Provider: **ASI Group**
AIA Course Number: **ASI092018**

Length: **1 Hour**
Credits: **1 AIA HSW CE Hour**

Course Title: **Bathroom Design : The Differentiating Factor**

Description

Learn about the impact of great bathroom design on occupants and visitors, building owners and facility managers as well as the importance of design collaboration with building owners, managers, and manufacturers.

Learning Objectives

Upon completion of this course, the design professional will be able to:

1. Talk about the elements of great bathroom design and be equipped to defend against any negative design choices
2. Understand the importance of collaboration on bathroom design, both with a building owner, manager, and the manufacturer
3. Discuss the importance of a restroom experience to building occupants and visitors. Understand how perceptions and functionality of restrooms not only affect perceptions of a whole structure, but also affect the productivity and performance of its occupants
4. Discuss how partitions and accessories support bathroom design and better understand the tradeoffs and durability, aesthetics, maintenance, user safety and total life cycle cost

Method of Delivery

The course is offered to design professionals in a live setting.
