

Lockers and Storage

THE ONE STOP LOCKER SHOP

EXCLUSIVELY FROM ASI

ASI Storage Solutions provides the peace of mind that can only come from working with a global company that was built for the needs of ever-evolving, modern, diverse buildings.

ASI Storage offers more choices in materials—Plastic (HDPE), Phenolic and Powder Coated Steel, as well as styles and configurations to meet a variety of needs. Our extensive line of lockers, benches, cubbies, and shelving comes standard with leading-edge features, and we ship out more products in 48 hours than anyone else in the industry.

ASI Storage Solutions manufactures high-quality locker systems and storage products designed for use in schools, healthcare facilities, stadiums, offices, retail environments and other commercial, institutional and industrial applications.

- Options for Any Environment
- Built for Maximum Durability
- Shipped Fully Assembled or Knocked Down (metal)
- Competitive Pricing
- Easy to Install / Low Maintenance
- LEED® Friendly, Environmentally Conscious

ASI Storage can meet or exceed any specification, and our products are LEED Friendly, Designer Friendly, ADA Friendly, and User Friendly.

These are some of the reasons that architects, designers, building owners, facility managers, and construction professionals rely on ASI Storage Solutions when they need quality, value, and choice. Welcome to the ASI Group—the world’s leading manufacturer of commercial cubicles, washroom accessories, lockers, and visual display products. We offer the greatest experience in the industry with the largest product breadth, delivered when and where you need them. Welcome to choice, welcome to innovations, welcome to the ASI Group.

Two-Person Z Single-Tier Four-Tier

*Traditional Collection Lockers
shown in Red #45.*

TRADITIONAL COLLECTION

The visually appealing and very durable Traditional Collection is our most widely distributed locker line. Offering the most value for typical locker applications, this collection is available in a full range of spacious sizes, from single- to six-tier configurations, as well as 16-person and wall-mounted. The addition of our new two-person Z-Locker completes the Traditional Collection.

Featuring 16 gauge louvered doors, frames, and bottoms and 24 gauge tops, sides, backs, and shelves. All traditional lockers come with standard features that outpace the competition.

* STANDARD FEATURES

- 2 mil powder coated in any of 15 designer colors
- Stainless steel recessed handle for safety
- 16 gauge bottom for durability
- Continuous full-length staked piano hinge for security
- Rubber door silencers for quiet operation
- All locker bodies and internal parts are offered in our standard Almond color

KNOCK DOWN LOCKERS — SHIP IN 48 HOURS **ASSEMBLED LOCKERS — SHIP IN 5 WORKING DAYS**

- All QSP orders must be clearly marked Quick Ship or QSP, otherwise the normal production queue will dictate the ship date.
- The standard lead time for knock down QSP lockers is 2 working days after receipt of order.
- Shop drawings will not be provided for QSP orders.
- Assembled lockers of 50 frames or less require 5 working days. Add 1 working day for removal of legs.
- Maximum standard QSP order size is 50 frames. Orders larger than 100 frames will be processed as production orders. Contact your customer service representative for inventory availability beyond standard limits.

**48 hour shipping for Traditional Collection is available in single- to six-tier configurations and in six colors, see sizes on pages 20-21 and colors on page 16.*

- ASI Storage Solutions reserves the right to assign warehouse FOB point based on inventory availability.

See complete details at asi-storage.com

TRADITIONAL PLUS COLLECTION

With the same standard features as the Traditional line, the Traditional Plus Collection is intended for more rugged applications. Available in single-, double, or triple-tier configurations, this collection features 14 gauge solid doors with 16 gauge full-height reinforcement channels, frame-secured 11 gauge frame hooks with protruding padlock hasps, and a maintenance-free, single-point latching system.

COMPETITOR COLLECTION COLORS + SIZES
See colors on page 16 and sizes on pages 20-21

PRO COLLECTION

The Pro Collection is specifically designed for applications that require easy access to uniforms and equipment. Select the configuration that best suits your needs by adding a lockable security box and/or a footlocker with a reinforced top that doubles as a seat. The open front and perforated sides allow for full ventilation, with a large dedicated storage area. The ideal choice for athletic lockers.

STANDARD FEATURES

- 2 mil powder coated in any of 15 designer colors
- Stainless steel recessed handle for the security box
- 16 gauge bottom for durability
- Rubber door silencers on security box and footlocker for quiet operation

PERFORMANCE PLUS SHELVING

PERFORMANCE PLUS CLIPS

Heavy gauge floor anchor clips are also available for securing the unit to the floor.

Shipped In
48 HOURS

With Performance Plus Shelving, you can easily add storage space where required and as much as needed. This light-duty industrial shelving rounds out our offering for all your storage needs.

STANDARD FEATURES

- Heavy-duty or standard shelves that are manufactured from 22 gauge powder coated steel and designed with support flanges to accommodate normal loads without the need for additional reinforcement
- Expansion possibilities — units can be attached side by side
- Box posts for the front of the unit, allowing full access to the shelf
- ASI Storage Solutions 2 mil powder coated gray
- Performance Plus Clips that secure the shelves to the posts, making the shelving even more stable. Installing and repositioning them is a simple press fit that does not require tools
- One inch on vertical centers shelf adjustment, providing ample configuration capabilities
- Availability in either open or closed units
- Five shelves standard. Additional shelves available at additional costs

STORAGE CABINETS

Steel storage cabinets allow users the flexibility to adjust shelf heights and provide unobstructed access to the entire cabinet with double-doors that open 180 degrees. The full-height door stiffeners and three-point latching mechanism helps keep your space quiet and supplies secure.

STANDARD FEATURES

- Three-point locking system offers maximum security
- Easily adjustable shelves
- Hinged doors reinforced with a full height hat channel open 180 degrees
- Tough powder coated finish available in almond and gray
- Shipped knocked down; assembly available

FOREMAN'S DESK

Plastic Traditional Collection Lockers shown with standard slotted ventilation in Cream #9235.

PLASTIC TRADITIONAL COLLECTION

ASI Plastic lockers are built using a Unibody™ system. The sides and back of the locker are formed from a single piece of HDPE, while the locker door frame is made from one piece of machined HDPE. These features add structural integrity and rigidity. Add to that the highest quality hinges and latches, and ASI solid plastic lockers stand apart as the best in the industry. Plastic Lockers are ideal for high-humidity applications and are backed by a 15-year warranty, as these virtually maintenance-free lockers will never rust, rot, or corrode. Available in multiple standard configurations as well as optional configurations like Lattice Lockers, or doors with other non-standard vents.*

STANDARD FEATURES

- The Unibody™ system—sides and back formed from one sheet of plastic
- The door frame is made from one piece of machined HDPE adds rigidity
- ½" face, ten colors, textured finish
- ¾" one pc. body, tops, bottoms, and shelves, natural color, textured finish
- Rabbeted joinery with stainless steel fasteners
- Black, recessed, vertical acting handle for safety and security with padlock hasp, accepts built-in locks
- Black continuous powder coated hinge
- Self-latching door with multi-point engagement
- Lockers shipped fully assembled as single units
- Color on all non-exposed body parts will be natural white

PLASTIC SLOPE TOP SYSTEM

Newly designed optional locker slope top hoods with pre-cut corner angles and aluminum channels provide a clean, finished appearance.

**Contact your customer service representative to be advised on changes in price and delivery lead times for all non-standard items.*

ADA-compliant lockers are available, visit asi-storage.com

PLASTIC TRADITIONAL AND TRADITIONAL PLUS
COLORS + SIZES

See colors on page 16 and sizes on pages 20-21

PLASTIC TRADITIONAL PLUS COLLECTION

With the same standard features as the Traditional line, the Traditional Plus Collection are even more ruggedly built. Built using a Unibody™ system, the sides and back of the locker are formed from a single piece of HDPE, while the locker door frame is made from one piece of machined HDPE. These features add structural integrity and rigidity. Add to that the highest quality hinges and latches, and ASI solid plastic lockers stand apart as the best in the industry. Plastic Lockers are ideal for high-humidity applications and are backed by a 15-year warranty, as these virtually maintenance-free lockers will never rust, rot, or corrode. Available in multiple standard configurations as well as optional configurations like Lattice Lockers, or doors with other non-standard vents.*

STANDARD FEATURES

- The Unibody™ system—sides and back formed from one sheet of plastic
- The door frame made from one piece of machined HDPE adds rigidity
- Fully assembled single unit with ½" construction throughout
- Color on all non-exposed body parts will be natural white
- Rabbeted joinery with stainless steel fasteners
- Black, recessed, vertical acting handle for safety and security with padlock hasp, accepts built-in locks
- Black continuous powder coated hinge
- Self-latching door with multi-point engagement

Double-Tier

Single-Tier

Two-Person Z

Plastic Traditional Plus Collection Lockers shown in Blue #9505 with lattice ventilation on double-tier locker and standard slotted ventilation on others.

Plastic cubbies will be the same color throughout.

PLASTIC CUBBIES

Cubbies are the ideal solution when non-locked, open storage is appropriate, such as in preschools, day care centers, churches, office supply/mail rooms, laundry rooms, and retail outlets. Kids love them because they are the right size for little hands and the right height to hang their backpacks and coats on their own.

Single-Tier

Triple-Tier

Two-Person Z

Phenolic Traditional Collection Lockers
shown in #3010 Dove Gray.

PHENOLIC TRADITIONAL COLLECTION

Phenolic Lockers are the material of choice when a high degree of design flexibility is desired or where durability and strength are required. These lockers are fabricated to stand the test of time. The dense components, combined with stainless steel fasteners, stand up to the most extreme conditions of moisture and humidity. Phenolic is impact, water, and corrosion resistant, and does not support bacteria. The superior construction and materials used in the locker system make it adaptable to all types of facilities, including health clubs, country clubs, and executive washrooms. Phenolic lockers can easily be customized.*

STANDARD FEATURES

- ½" face, 15 Black Core Phenolic colors
- ½" tops, bottoms, and shelves, Folkstone Celesta
- ¾" sides and back, Folkstone Celesta
- Black powder coated 120 degree swing limit five-knuckle hinges are securely fastened
- Black, recessed, vertical acting handle for safety and security with padlock hasp, accepts built-in locks
- Self-latching door
- 10-year warranty
- Full perimeter ventilation
- Lockers shipped fully assembled as single unit

PHENOLIC SLOPE TOP SYSTEM

Newly designed optional locker slope top hoods with pre-cut corner angles and aluminum channels provide a clean, finished appearance.

**Contact your customer service representative for customization or options not shown in the catalog. Any customization is subject to a change in price and delivery lead times. Now available in Color-Thru Phenolic colors upon request.*

**PHENOLIC TRADITIONAL AND TRADITIONAL PLUS
COLORS, FINISHES + SIZES**

See colors on page 17 and sizes on pages 20-21

PHENOLIC TRADITIONAL PLUS COLLECTION

With the same standard features as the Traditional line, the Traditional Plus Collection is intended for even more rugged applications. Phenolic Lockers are the material of choice when a high degree of design flexibility is desired or where durability and strength are required. These lockers are fabricated to stand the test of time. The dense components, combined with stainless steel brackets and fasteners, stand up to the most extreme conditions of moisture and humidity. Phenolic is impact, water, and corrosion resistant, and does not support bacteria.

STANDARD FEATURES

- ½" construction throughout
- Lockers available in 15 Black Core Phenolic colors
- Colors on all non-exposed body parts will be Folkstone Celesta
- Additional colors are available on request
- Black powder coated 120 degree swing limit five-knuckle hinges are securely fastened.
- Black, recessed, vertical acting handle for safety and security with padlock hasp, accepts built-in locks
- Self-latching door
- 10-year warranty
- Lockers shipped fully assembled as single units
- Full perimeter ventilation

Five-Tier

Two-Person Z

Triple-Tier

Phenolic Traditional Plus Collection Lockers shown in Cherry.

No painting ever required.

PHENOLIC CUBBIES

Cubbies are the ideal solution when non-locked, open storage is appropriate, such as in preschools, day care centers, churches, office supply/mail rooms, laundry rooms, and retail outlets. 1/2" phenolic construction that's water resistant, easy to clean, and available in multiple designer colors.

METAL ACCESSORIES

CONTINUOUS SLOPE HOOD

18 gauge continuous Slope Hoods add a finishing touch to lockers installed along walls and on island groups. The slope rise is equivalent to one-third the depth of the locker. Custom applications include sloping hood splices, valley corners and hip ends—all with concealed fasteners.

FILLERS – VERTICAL

Vertical Fillers enhance the appearance of an installation by covering any objects between lockers, and/or filling the gap between lockers and the wall. Fillers are available in two widths, designed for use together with Wall Angle Slip Joints for a tight fit and smooth finish.

RECESS TRIM

18 gauge Recess Trim, with a 3" face and a $\frac{3}{8}$ " top return, provides a neat, framed appearance for recessed lockers. Integral corner caps and hairline joints are reinforced with welded-on splice fingers for this application.

INDIVIDUAL SLOPE TOP/ROW END

Individual Slope Tops are available to help eliminate clutter and add a clean, finished look to the lockers. 16 gauge exposed row ends add to finished look.

ZEE BASE

14 gauge Zee Bases provide an overhang with toe space, raising lockers 4" off the floor. This economical and practical accessory also enhances appearance.

FRONT BASE/ CLOSED END BASE

These 18 gauge bases add a finished look by fitting flush, between locker legs; e.g., Front Bases fit between front legs, and End Bases between front and rear legs of lockers at the end of a row.

BENCH TOPS & PEDESTALS

Benches add welcome convenience and comfort to every locker room. Bench tops are very durable, made of 1¼" lacquered hardwood, ¾" black core phenolic, or 1½" solid plastic. Bench tops are 9½" deep. Other ADA sizes are also available upon request.

STANDARD FEATURES

- Floor anchored tubular pedestals, 10 gauge powder coated steel
- Free standing trapezoidal pedestals, 16 gauge stainless steel
- Cast iron pedestals
- Powder coated steel wall mount brackets and back rest brackets are available
- Plastic tops come in nine designer colors (see page 16) and black core phenolic tops are available in 12 designer colors (see page 17). These durable finishes will never require repainting. Bench backs are also available.

LOCKS

A VARIETY OF LOCK OPTIONS ARE AVAILABLE.

- Lockers are designed to accept built-in key, combination, padlocks, electronic, and coin operated locks

 ADA-compliant locks are also available.

DIGILOCK™ KEYPAD LOCKS

- All metal lock housing with or without integral pull handle
- Standard, vertical, and horizontal body orientation
- Tamper guard
- Visual and audible indicators
- Powered by four premium AA or two 9-Volt batteries

BUILT-IN COMBINATION LOCKS

- Five preset combination changes
- Master keys
- Stainless steel escutcheon plate
- Dead bolts or spring bolts
- LH and RH reversible
